# 4100 XTREME

- > Forged aluminium body, high resistant, polished and anodized.
- > Rounder handle, ergonomic and comfortable. Perfect balance.
- > Stainless steel nozzle and needle.
- > New and modern regulators design, no edges, easier to clean.
- > Every coupling assembled to the body made in stainless steel.

- > High volume cup (1L), aluminium made.
- > Double lock closing system, with solvent resistant seal and anti-drip lid.
- > Maximum use of paint.

- > Highest manufacturing technology.
- > Only suction gun made without any seal, interior or exterior, between air and paint areas.

- > Self adjusting paint packing gland, made of stainless steel.
- > Unique in the market.
- > Avoids seals manipulation, and makes easier disassembling the gun for a deep cleaning of the paint area.
