PERFECT MATCH FOR WOOD FINISHING NEW VERTICAL MIXED BELLOW PUMP HTV 250 + MINI XTREME MIX

NEW BELLOW SYSTEM.

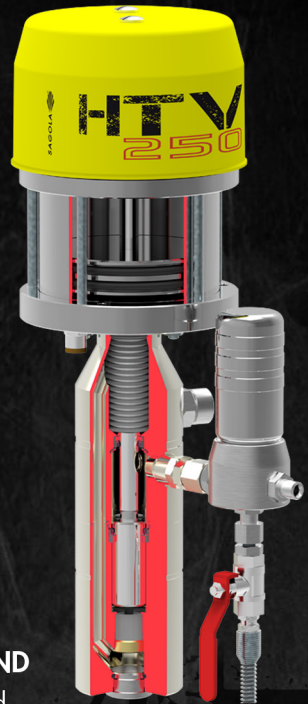

High durability.
No need of lubrication.
Reduce maintenance cost.

NEW OVERSIZED VALVES. They provide better product flow and a lower product flow-speed, therefore, a lower wear.

OVERSIZED PNEUMATIC CONTROL AREA. To avoid freezing problems and maintain a smooth operation without any loss of performance at a minimum air consumption.

PNEUMATIC AREA SHAFT GROUND AND CHROMIUM-PLATED.

PRODUCT AREA SHAFT TEMPERED AND CHROMIUM-PLATED. Great durability and wearing resistance.

- Maximum robustness
- Maximum ergonomics
- High efficiency
- IDEAL for:
 - Clearcoats and waterbased enamels
 - U.V. clearcoats
 - Polycrylics
 - High production with laquers and 2k basecoats
